Summary **21**

Samenvatting **23**

1 Introduction

Here, we add some general introduction of your work and information retrieval (IR). You know the drill. It is followed by a set of "obligatory" sections.

1.1 Research Outline and Questions

Detail on your research outline (tell the whole story of the research in the thesis) and include the research questions you answer in the research chapters.

RQ1 Why does wasabi burn?

RQ2 Why does wasabi still burn?

In RQ2 we as ask why wasabi burns.

1.2 Main Contributions

Make a list of the main contributions of this thesis: new models, new analyses, datasets that have been created, assessments, etc.

1.3 Thesis Overview

A short summary per chapter to explain what is discussed in each chapter. At the end you can add a few lines on how to read the thesis (e.g., skip background if you know most of it already).

1.4 Origins

Which papers are the basis for each chapter? For every co-authored paper included in the thesis, explain who did what for the paper. Also, make sure you simply list all your (co-)authored papers in the end. As of late 2024, we use concepts from the Contributor Role Taxonomy (CRediT) at `https://credit.niso.org`.

Chapter 2 is based on the following paper:

- E. Meij. *Combining Concepts and Language Models for Information Access*. PhD thesis, University of Amsterdam, 2010.

  AB: Conceptualization, Data Curation, Formal Analysis, Investigation, Methodology, Resources, Software, Validation, Visualization, Writing – Original Draft Preparation, Writing – Review & Editing. CD: Formal Analysis, Investigation, Methodology, Software, Writing – Original Draft Preparation, Writing – Review & Editing. EFG: Conceptualization, Methodology, Software, Supervision, Validation, Visualization, Writing – Original Draft Preparation, Writing – Review & Editing.

Chapter 3 is based on the following paper:

- W. Weerkamp. *Finding People and their Utterances in Social Media*. PhD thesis, University of Amsterdam, 2011.

  HI: Conceptualization, Data Curation, Formal Analysis, Investigation, Methodology, Resources, Software, Validation, Visualization, Writing – Original Draft Preparation, Writing – Review & Editing. JK: Validation, Formal analysis. LM: Validation, Formal analysis, Writing – Review & Editing. NOP: Conceptualization, Methodology, Supervision, Writing – Review & Editing. QR: Conceptualization, Investigation, Methodology, Software, Supervision, Validation, Visualization, Writing – Original Draft Preparation, Writing – Review & Editing.

The writing of the thesis also benefited from work on the following publications:

- W. Weerkamp. *Finding People and their Utterances in Social Media*. PhD thesis, University of Amsterdam, 2011.

Just add all of your publications; it's nice to have all of them listed in one place here.

2 Background

Prior to 2018, all theses had a related work chapter, followed by chapters corresponding to three or more published papers.

From 2018 onwards, a thesis may also do without related work chapter, and it needs to have four chapters based on four or more published papers.

The related work chapter. Usually just a collection of the related work sections of the papers, with some additional introducing background work on your area (e.g., introduction to IR). List here which topics you discuss in this section.

Of course, you could refer to the work by Meij [2] or Weerkamp [3].

2.1 A regular section

Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetuer id, vulputate a, magna. Donec vehicula augue eu neque. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas. Mauris ut leo. Cras viverra metus rhoncus sem. Nulla et lectus vestibulum urna fringilla ultrices. Phasellus eu tellus sit amet tortor gravida placerat. Integer sapien est, iaculis in, pretium quis, viverra ac, nunc. Praesent eget sem vel leo ultrices bibendum. Aenean faucibus. Morbi dolor nulla, malesuada eu, pulvinar at, mollis ac, nulla. Curabitur auctor semper nulla. Donec varius orci eget risus. Duis nibh mi, congue eu, accumsan eleifend, sagittis quis, diam. Duis eget orci sit amet orci dignissim rutrum.

2.2 Another regular section

Nam dui ligula, fringilla a, euismod sodales, sollicitudin vel, wisi. Morbi auctor lorem non justo. Nam lacus libero, pretium at, lobortis vitae, ultricies et, tellus. Donec aliquet, tortor sed accumsan bibendum, erat ligula aliquet magna, vitae ornare odio metus a mi. Morbi ac orci et nisl hendrerit mollis. Suspendisse ut massa. Cras nec ante. Pellentesque a nulla. Cum sociis natoque penatibus et magnis dis parturient montes,

This chapter was published as S. Hawking. *A Brief History of Time: From the Big Bang to Black Holes*. Bantam, 1988.

nascetur ridiculus mus. Aliquam tincidunt urna. Nulla ullamcorper vestibulum turpis. Pellentesque cursus luctus mauris.

2.A Some title for an appendix

Quisque ullamcorper placerat ipsum. Cras nibh. Morbi vel justo vitae lacus tincidunt ultrices. Lorem ipsum dolor sit amet, consectetuer adipiscing elit. In hac habitasse platea dictumst. Integer tempus convallis augue. Etiam facilisis. Nunc elementum fermentum wisi. Aenean placerat. Ut imperdiet, enim sed gravida sollicitudin, felis odio placerat quam, ac pulvinar elit purus eget enim. Nunc vitae tortor. Proin tempus nibh sit amet nisl. Vivamus quis tortor vitae risus porta vehicula.

2.B Some other title for an appendix

Quisque ullamcorper placerat ipsum. Cras nibh. Morbi vel justo vitae lacus tincidunt ultrices. Lorem ipsum dolor sit amet, consectetuer adipiscing elit. In hac habitasse platea dictumst. Integer tempus convallis augue. Etiam facilisis. Nunc elementum fermentum wisi. Aenean placerat. Ut imperdiet, enim sed gravida sollicitudin, felis odio placerat quam, ac pulvinar elit purus eget enim. Nunc vitae tortor. Proin tempus nibh sit amet nisl. Vivamus quis tortor vitae risus porta vehicula.

3
Methodology

A chapter on the general research methodology. You can use this chapter to introduce your baseline system, if it is the same in several chapters (e.g., language modeling). Also, you can list the document collections you use here (e.g., TREC collections, with details of the collection, topics, assessments, preprocessing, etc.). Finally, introduce metrics you refer to in research chapters and explain why you use these, and give details on significance tests you use.

Just put everything in here that is used in more than one research chapter, you can simply refer back to this chapter.

This chapter was published as S. Hawking. *A Brief History of Time: From the Big Bang to Black Holes*. Bantam, 1988.

Part I

A First Part

4
First Research Chapter

Now for some actual research. It is simply copy-pasting your conference or journal papers into this format, adjust the introduction to the "new" thesis story by linking to the research questions in the introduction, and change all mentions of "paper" to "chapter". It might be good to repeat the research questions from Section 1.1 in the introduction, and later on in the conclusions of each chapter.

At the start of the chapter there is an obligatory numberless footnote to indicate the publication on which the chapter is based.

This chapter was published as S. Hawking. *A Brief History of Time: From the Big Bang to Black Holes*. Bantam, 1988.

Part II

Another Part

5
Second Research Chapter

Here's another research chapter. Again, it is simply copy-pasting your conference or journal papers into this format, adjust the introduction to the "new" thesis story by linking to the research questions in the introduction, and change all mentions of "paper" to "chapter". It might be good to repeat the research questions from Section 1.1 in the introduction, and later on in the conclusions of each chapter.

At the start of the chapter there is an obligatory numberless footnote to indicate the publication on which the chapter is based.

This chapter was published as S. Hawking. *A Brief History of Time: From the Big Bang to Black Holes*. Bantam, 1988.

6 Conclusions

In this chapter you look back at the questions you asked in Section 1.1 and formulate the answers based on the research chapters. You then continue with a section on future research directions that follow from the work in the thesis.

6.1 What Have We Done?

- What did we do?
- What did we find?

  RQ1 Why does wasabi burn?

  RQ2 Why does wasabi still burn?

- What does it mean/What are the implications?

6.2 What Is Next?

- What are the limitations?
- What should we do next?

Bibliography

[1] S. Hawking. *A Brief History of Time: From the Big Bang to Black Holes*. Bantam, 1988.
